Aim: To make this facility reach every possible remote location such as villages of Adaman & Nicobar Island.

Targeting Department under GOI: Ministry of HRD, State Ministry of Education.

5. **An Intelligent System Built For Avoiding Train Derailment:** The Indian Railways currently uses Self Propelled Ultrasonic Rail Testing (SPURT) cars for detecting derailment of the tracks in the system. The car is large and cannot give way to a train to pass. Hence our system uses High Beam Laser light, Communication system which is comparatively Robust, Cheaper, Time Saving, Efficient, Less Maintenance, Human Resource, Can be accessible in remote location.

Status: Seed

Aim: Reduced in the number of derailment Cases in Next 5 Years.

Targeting Department under GOI: Ministry of Railways, IRCTC.

6. **Civil-Cop:** There has been a rise in traffic violations such as speeding, driving without license and smoking while driving, according to figures released by the Delhi traffic police in 2015. Moreover road illegalities have increased so much like smuggling. A software based system is developed which makes the information reach to the concerned traffic police.

Status: Seed.

Aim: Increase in civic sense relating to Driving among the Country-Men. Corruption reduced among Traffic Police.

Targeting Department under GOI: Ministry of Road, Transport and Highways (State as well as Central).

7. **Coolie Automation System:** The Indian Railways is dependent on the most unorganized sector i.e. Coolie. We are trying to build a system which can automate this coolie system just like online cabs one can book coolie. So that they cannot ask for random amount as well.

Status: Seed

Aim: Improve the conditions of coolie of our Country and stop the crime which takes place with the support coolie(s).

Targeting Department under GOI: Ministry of Railways, IRCTC.

8. **Know Your Co-Passengers:** An Information system will be designed on various mobile based OS to provide an Information relating to your co-passengers in collaboration with Indian Railways. To make women/ elder citizen/ minors / foreigners travel safely under Indian Railways.

Status: Seed

Aim: An Information Providing System which can be a great help during unfortunate circumstances on Board. Making travelling with more safer with better look and feel in Indian Railways.

Targeting Department under GOI: Ministry of Railways, IRCTC.
